

Organizing Committee

Patron	Prof. Suman Chakraborty, Director, IIT Kharagpur	
Chairperson	Prof. Damodar Maity, IIT Kharagpur	
Co-Chairperson	Prof. A. K. Gupta	Prof. Amit Shaw
	Prof. Anirban Dhar	Prof. M. A. Reddy
Convener	Dr Manish Pandey	
Co - Convener	Dr. Troyee Tanu Dutta	
Organizing Secretaries	Dr. Abhishek Ghosh Dastider	Dr. Gaurav Misuriya
	Dr. Amit Passi	Dr. Nandan Maiti
	Dr. Pratyush Kumar	Dr. Reshma Mohan
Treasurer	Prof. Kousik Deb	

Call for Papers

You are invited to submit abstracts/extended abstracts/full length papers on the mentioned themes through our website <http://www.infrasure.iitkgp.ac.in/> electronically by Oct 15, 2026. Selected papers will be published in Scopus/SCI/ESCI journals or in reputed books as technical papers or book chapters after peer review processes.

The author is free to present any number of papers at the **INFRASURE 2027** conference, but a separate registration fee is to be paid for each paper. **Early Bird Registration Fee (Before December 31, 2026)**

Awards

Awards will be presented for the best paper and best poster under each individual conference theme.

INFRASURE 2027

Infrastructure Sustainability and Resilience Forum

22 – 24 January 2027

Research Park Kolkata, IIT Kharagpur

Key Dates

Abstract submission open	10 Sep 2026
Abstract submission closes	15 Oct 2026
Acceptance of abstract	30 Oct 2026
Full paper submission	30 Nov 2026
Paper review outcomes	10 Dec 2026
Final paper submission	20 Dec 2026
Early bird registration	30 Dec 2026

About the Conference

As part of the **Platinum Jubilee Celebrations of IIT Kharagpur**, the Department of Civil Engineering is organising **INFASURE 2027: Infrastructure Sustainability and Resilience Forum** from **22 to 24 January 2027** at IIT Kharagpur, India. The conference aims to provide a multidisciplinary forum for disseminating recent research, technological advancements, innovative practices, and practical solutions from academicians, scientists, researchers, engineers, industry professionals, practitioners, policymakers, and consultants across all major domains of Civil Engineering and Sustainability, including water resources and hydraulics, structural, geotechnical, transportation, environmental, construction and infrastructure engineering, with a focus on developing sustainable, safe, and climate-resilient infrastructure.

History of IIT Kharagpur

IIT Kharagpur was established in 1951 as the first Indian Institute of Technology, at the historic Hijli Detention Camp, with the vision of advancing technical education and research in independent India. The Department of Civil Engineering, one of the Institute’s oldest departments, was also established in 1951 and has since grown into a leading centre for education, research, and consultancy in areas such as structural, geotechnical, transportation, environmental, and water resources engineering, contributing significantly to infrastructure development and technological advancement in India.

SPONSORSHIP BENEFITS								
SPONSORSHIP CATEGORY	Sponsorship Amount	Logo on conference banner	Logo displayed at the start of each session	Company logo on conference homepage with hyperlink	Industry Talk (Min)	Complimentary delegate registrations	Invitation to conference dinner for registered delegates	Exhibition space for products/technologies
PLATINUM	₹8 Lakh	✓	✓	✓	15	6 Regs	✓	✓
DIAMOND	₹6 Lakh	✗	✓	✓	10	4 Regs	✓	✓
GOLD	₹4 Lakh	✗	✗	✓	7	3 Regs	✓	✓
SILVER	₹2 Lakh	✗	✗	✓	✗	2 Regs	✓	✓
BRONZE	₹1 Lakh	✗	✗	✗	✗	1 Regs	✗	✓

Hydraulic and Hydrologic Systems

- Climate Change Impacts on Water Resources
- Flood and Drought Risk Assessment, Forecasting and Management
- Urban Flooding and Stormwater Management
- Watershed Management
- Groundwater Hydrology
- Smart Water Networks and Pipe Hydraulics
- Experimental Hydraulics
- Riverbank Protection, Sediment Dynamics, and Morphological Resilience
- Computational Methods in Hydraulic and Hydrologic Systems

Geohazards and Geotechnical Infrastructure

- Ground Improvement and Stabilisation Techniques
- Foundations and Earthworks
- Geosynthetics and Geocomposites
- Slope Stability
- Geo-environmental Engineering
- Offshore Geotechnics
- Earth Retaining Structures
- Pavement Geotechnics
- Earthquake Geotechnical Engineering
- Geohazard Risk Assessment and Management
- Tunnelling and Underground Construction
- Thermal–Hydro–Mechanical Behaviour of Geomaterials

Environmental Monitoring and Management

- Clean Air Strategies: Monitoring and Management
- Water and Wastewater Management
- Solid and Hazardous Waste Management
- Circular Economy and Sustainability
- Life Cycle Assessment (LCA)
- Thermal and Visual Comfort
- Noise Pollution Control

Infrastructure Design and Innovation

- Sustainable Housing and Green Buildings
- Analysis and Design of Structural Systems

Themes

- Structural Dynamics & Earthquake Engg.
- Experimental studies in Structural Engg.
- Computational Methods in Infrastructure Systems

Pavement, Traffic and Transportation Technologies

- Pavement Engineering and Technologies
- Traffic Engineering and Management
- Smart Cities and Urban Mobility
- Intelligent Transportation Systems
- Sustainable and Resilient Transportation Systems

Surveying and Geoinformatics

- Remote Sensing, GIS, UAVs, and Geospatial Analytics
- Urban Planning and Land Use Management
- Mapping of Urban Infrastructure

Future Ready Construction Materials and Technologies

- Bio-Based, Natural Fiber, Eco-Friendly, and Recycled Construction Materials
- Circular Economy Approaches in Construction
- Modular and Prefabricated Construction
- Robotics and Automation in Construction
- Life Cycle Assessment (LCA) for Construction

Digital Twin, Instrumentation and AI/ML in Civil Engineering

- Building Information Modelling (BIM) and Digital Twin Technologies
- IoT, Smart Sensors, and Real-Time Infrastructure Monitoring
- Digital Twin and AI/ML for Environmental Monitoring and Management; Hydraulic and Hydrologic Systems; Infrastructure Design and Maintenance; Traffic and Pavement Technologies

- Big Data, Cloud Computing

Energy Recovery

- Geothermal Energy
- Hydropower Energy
- Waste to Energy
- Tidal Energy
- Offshore Wind Turbine

How to Reach Research Park Kolkata, IIT Kharagpur

How to Reach Research Park Kolkata, IIT Kharagpur
Research Park Kolkata is well connected to Kolkata by air, rail and road.

By Roadways

Travel via New Town–Rajarhat, Action Area III towards the Army Institute of Management. Buses, taxis and app-based cabs are readily available.

By Airways

The venue is about 18–20 km from Netaji Subhas Chandra Bose International Airport, with a travel time of approximately 40–60 minutes by cab or taxi.

By Railways

From Howrah Station, the venue is about 30–35 km away and takes around 60–90 minutes by cab. From Sealdah Station, it is about 22–25 km away and takes approximately 50–75 minutes.
